Career Summary

I'm a November 2020 graduate of Georgia Tech's full-time, Full Stack Flex Web Development program. All of my projects can be accessed at the links above. I have completed three years of college at the University of Georgia, majoring in art. I was fortunate to win both local and national awards in painting. Ever since high school, I have worked and have had management positions. Unfortunately, one of those positions was cut short due to the pandemic.

Objective

I am looking for a Full Stack Development position to begin my career in development. I know how to work in groups and independently, and I look forward to sharing experiences and learning with others.

Technical Skills

- Page Design: HTML5, CSS3, Bootstrap, Foundation
- Primary Language: JavaScript
- Libraries/frameworks: React, Node, Express, jQuery, Handlebars, Axios, and many other Node packages
